

DUTCH CHEESE

Perhaps the best known food product from the Netherlands. The geography of the country lends itself perfectly to cheese production, as there are plenty of grazing pastures in which the dairy cows can feed. With hundreds of years of experience to back them, it is no surprise that Dutch cheese is the most tasteful cheese in the world.

FlevoTrade cheese is produced in modern Dutch factories which meet the highest product safety and quality standards:

- BRC (British Retail Consortium)
- IFS (International Food Standard)
